

Cover Letter

Dear Hiring Manager,

I am Janvita Reddy, a highly motivated and detail-oriented Data Science professional with a strong background in Machine Learning, Cloud Computing, and Data Analytics. With a Master's degree in Data Science from Texas A&M University and a Bachelor's degree in Mechanical Engineering from Sardar Vallabhbhai National Institute of Technology, I possess a unique blend of technical skills and problem-solving abilities. My experience as a Graduate Research Assistant at Texas A&M University has equipped me with expertise in developing and deploying machine learning models, working with large datasets, and collaborating with cross-functional teams.

Throughout my academic and professional journey, I have worked on various projects that demonstrate my skills in machine learning, deep learning, and data analytics. For instance, my project on "AI Assistant" showcases my ability to develop a personal AI assistant that automates tasks like sending emails, scheduling meetings, and performing internet searches. Additionally, my experience in reproducing ChatGPT and developing a Job Recommendation System highlights my expertise in natural language processing and recommender systems. My projects on Wide Residual Attention Networks and Chicken Disease Classification using MLOps demonstrate my proficiency in computer vision and MLOps. These projects and experiences align with the job requirements, and I am confident that my skills and knowledge will enable me to make a significant impact in this role.

I am excited about the opportunity to join your team and contribute my skills and experience to drive business growth. With my strong technical background, passion for machine learning, and ability to work collaboratively, I am confident that I am an ideal fit for this role. I am impressed by the company's commitment to innovation and customer satisfaction, and I am eager to be a part of a team that shares my values. Thank you for considering my application. I look forward to discussing my qualifications further.

Thanking you,
Janvita Reddy
